## Overview

### Key Features

- **Type 10 webbing** - Almost twice as strong as the standards require, and is certain to provide the longest service life possible
- New back/shoulder padding allows optimum air flow, while providing all-day comfort, even in the shoulders when carrying a full load of tools
- **Web Finials** - Clip-on design safely organizes webbing after proper adjustment
- **PivotLink Connection** - Unique rotary design provides greater comfort in bending/mobility
- **Cam Buckles** - Easy, one-hand adjustment/release allows simultaneous adjustment of shoulder straps
- **Self-Contained Label Pack** - Integrated pack encapsulates labels minimizing damage and loss
- **Integrated Accessory System** - Modular attachment design provides connection points for belts/tools/accessories

### Recommended Industries/Use

- Construction
- Government

### Hazards

- Confined Space
- Fall from height

### Regulations

- Meets all applicable OSHA, ANSI and CSA standards

### Warranty Information

We sincerely believe that our fall protection equipment is the best in the world. Our products endure rigorous test to ensure that the fall protection equipment you trust is manufactured to the highest standards. Miller fall protection products are tested to withstand normal wear and tear, but are not indestructible and can be damaged by misuse. Our Limited Lifetime Warranty does not apply to normal wear and tear or abusive treatment of the product. In the unlikely event that you should discover defects in either workmanship or materials, under our Limited Lifetime Warranty, we will repair or replace the product at our expense. If a replacement is necessary and your product is no longer available, a comparable product will be substituted. Should a product issue surface, contact us at 800/873-5242. Manufacturing specifications are subject to change without notice.

## Specifications

### Maximum Working Capacity

- All Miller harnesses are rated to 400 lbs. capacity

### Specification Sheets

- For full engineering specification sheets, go to the spec sheet section under downloads and documentation

## Training & Proper Use

Proper product training and professional fall protection training is recommended. Refer to Product Use Instructions enclosed with products.
