

Product Family

North Force Hard Hat

Developed in partnership with oil and gas industry leaders in some of the toughest environments on the planet, the revolutionary North Force protects workers like no other hard hat. From a shell design that provides 24% more back-of-head coverage than standard Type I hard hats, to a suspension system that allows for an ultra-customized, comfortable fit and improved retention, the Force is leading the way in rear impact protection.

Replacement Part
Sweatband

Overview

Key Features

Innovative shell design provides back-of-head protection without constricting range of motion

Unique shell material is lightweight, offers high-impact resistance and stands up to extreme changes in temperature (-30°F to 120°F)

Compatible with other PPE and accessories from liners to faceshields and hearing protection

Integrated rear clip helps keep goggle strap in place

Rear impact attenuator absorbs force of impacts to minimize injuries

Patented six point suspension with five adjustment areas for increased comfort and improved retention

Ergonomically designed ratchet allows for quick adjustment even while wearing gloves

Extended helmet shell provides 24% more back-of-head protection

Robust chin strap improves comfort and retention, keeping the hard hat in place

Recommended Industries/Use

- Agriculture
- Construction
- Forestry
- Manufacturing
- Mining
- Oil and Gas
- Steel and Metals

Hazards

- Extreme Environment
- Impact
- Slip

Specifications

ANSI and CSA

- Meets ANSI and CSA Type I Class E requirements
