

HONEYWELL FENDALL 2000 SALINE REPLACEMENT CARTRIDGE

Primary Emergency Eyewash – No Secondary Traumas.

The new, buffered, pH balanced Fendal 2000 saline solution delivers the essential eyewash needed in case of emergency, providing excellent protection from contaminants and bacteria that could lead to secondary trauma to an injured eye.

Honeywell Fendall 2000 Saline Replacement Cartridge
SKU: 32-002050-0000

Honeywell is introducing the Saline Replacement Cartridge for the Fendall 2000 eyewash station. Take good care of your eyes with a first emergency wash and reduce the risk of potential liability if eye injury from flushing with contaminated water occurs.

Honeywell Fendall 2000 Saline Replacement Cartridge provides 15 minutes of simultaneous flushing to both eyes in a convenient, self-contained unit. Moreover, Honeywell offers two years of maintenance in between checkups.

Honeywell

FEATURES AND BENEFITS

SPECIFICATIONS	DETAILS
Solution	Buffered, pH balanced, saline solution
Sterile Manufacturing	Performed in an ISO/FDA approved facility
Solution Delivery	Unique nozzle design delivers a soft "ribbon" of buffered, saline solution superior to tap water, for emergency eye care
Cartridge Expiration	24-month cartridge life from date of manufacture (sold separately from stations)
Installation	Cartridge change – less than five minutes to install
Regulation	ANSI Z358.1
Cartridge Info	Saline Cartridge for Fendall 2000 Case Qty: 1
Case Dimensions	24" x 16" x 9" Case Weight (lbs.): 62
Health hazards (acute and chronic)	Ingestion of volumes in excess of 20 liters may cause gastric irritation.
Emergency first aid procedures – notes to physicians	In the unlikely event of rapid ingestions of large volumes of the solution, induce vomiting and observe the patient for gastric irritation.
Conditions to avoid:	This product is stable and considered non-reactive under normal conditions of storage and usage.
Steps to be taken in case material is released or spilled	Flush area with water. The solution is not RCRA hazardous waste.
Precautions to be taken in handling and storing	Do not freeze or expose to temperatures in excess of 110°F (43°C) for extended periods. Extinguishing media: This is a nonflammable aqueous solution.
Boiling point	200°F (93.3°C)
Vapor pressure (mm Hg)	760

HAZARDS:

- Airborne particulates
- Biohazards
- Chemical
- Contamination
- Gas, Vapors, Smoke
- Splashes
