1002876

MF52

For Ø14mm/16mm rope with 0.3m lanyard and connector (ML00)

Overview

Key Features

In the event of a fall or slip, the Miller rope grabs lock onto the rope arresting the fall immediately. Follows the worker without assistance. Rope grabs prevent workers from falling during ascent or descent. The range includes models for both vertical and horizontal applications. They are particularly useful on sloping roofs where retractable lifelines may react too slowly.

Recommended Industries/Use

- Construction
- Manufacturing
- Utilities

Hazards

- Fall from height

Warranty Information

Our state of the art equipment provides the critical tool for worker protection, combining mobility with unsurpassed comfort.

At our ISO 9001 certified manufacturing facilities in Europe, we ensure that every Miller product is made in accordance with the standards and meets your exacting requirements.
