

## Technical Specifications

### Söll MultiRail® mobile anchor points Closed runner

#### Description:

The closed runner is a mobile anchor point for both system types Söll MultiRail® and Söll MultiRail Aluminium®. Available in stainless steel with polyamide inlays to minimize friction and provide great gliding performance, it is fitted with a stainless steel connector. As wheels are not necessary, it is dirt-resistant as well as very light, only 400g. It can be removed from the system at the end-stop exit sections or remain permanently on the rail. The closed runner is designed for Söll MultiRail® systems with defined entry and exit points.

#### Reference:

- 17407 / 1013517

#### Material:

- Stainless steel 316 (A4)

#### Technical characteristics:

- Weight: 400 g
- Breaking strength: > 25kN
- Operating temperature: -50 to +90°C

#### Certifications:

- Söll MultiRail® components are tested according to EN 795:2012 type D and the additional tests CEN/TS 16415:2013

#### Quality control:

- Manufacturing acc. to EN ISO 9001
- Quality check for each part
