Overview

Key Features

VeriPRO makes it easy to get an accurate, real-world picture of your employees' hearing protection. Find out whether your employees are receiving optimal protection, require additional training on how to fit their earplugs, or need to try a different model. VeriPRO uses sophisticated software in a user-friendly format to find out the Personal Attenuation Rating [PAR] your employees are receiving from their earplugs.

- Measures real world attenuation by using unmodified earplugs• Simple software installation and hardware set-up
- Fast, accurate, easy-to-understand results displayed within minutes
- Captures and stores historical information on employee PAR
- Fulfills regulatory requirements to “ensure proper initial fitting” of hearing protectors
- Works with any earplug

Recommended Industries/Use

- Agriculture • Chemical • Construction • Fire Protection • Food Services • Forestry
- Government • Law Enforcement • Manufacturing • Medical • Military • Mining
