

## HAND PROTECTION

# WorkEasy®

## NEW and Improved WE300

Higher Cut and Abrasion Protection

**WorkEasy-W300** now features a new and improved fiber blend that provides a higher-level of cut and abrasion protection. Workers appreciate the bare-handed feel of WE300's lightweight knit shell for excellent dexterity and tactile sensitivity. The technologically improved fiber blend offers a consistently high level of mechanical cut protection (ANSI level 3 / EN388 level 5) - making WE300 an excellent choice for applications where cut or slash hazards are a high risk.

### FEATURES AND BENEFITS

- High level of cut protection for hazardous applications
- Lightweight for excellent dexterity
- Polyurethane coating provides abrasion resistance for extended glove wear
- WE300 offers a high level of protection without the bulk, for optimal fit and flexible to help prevent hand fatigue
- Gloves are easily laundered for longer glove life

### APPLICATIONS

- Small Parts Assembly
- Fabrication
- Inspections
- Electronic Assembly
- Automotive Sub-Assembly
- Parts Handling
- Recycling / Glass Handling
- Shipping / Receiving
- Warehousing

### WE300

- Dyneema®, fiberglass and polyester blend knit shell provides outstanding cut and slash protection
- Polyurethane coating adds abrasion, tear and puncture resistance
- ANSI cut level 3
- EN388 cut level 5, abrasion level 4
- Available in sizes Small (7) - 2XLarge (11)
