SALISBURY

# YOU CAN FEEL THE DIFFERENCE

Welcome to a new level of safety, comfort and style: The Honeywell Salisbury Pro-Wear™ Plus series of arc flash garments. Engineered to be lightweight, more breathable, better fitting and softer to the touch, it's a difference you really can feel.

## OUR PREMIUM GARMENTS TAKE COMFORT TO THE NEXT LEVEL BY BEING THE LIGHTEST\* IN THE INDUSTRY WITH ENHANCED BREATHABILITY AND IMPROVED MOISTURE MANAGEMENT.

New standard garments offer the same performance and durability you are used to with reduced weight, new look and improved fit.

## WHY PRO-WEAR PLUS?

With our long-standing expertise in arc flash protection and a deep understanding of worker wants/needs, Honeywell Salisbury has redefined the notion of comfort, style and safety.

The lightweight design, soft fabrics and optimal fit are truly a difference that you will feel. All this is accompanied by a complete feature set for a professional grade arc flash line-up.

Feel the difference, and try on our next generation arc flash clothing.

## ON THE JOB SAFETY

### ASTM F2178

Standard test method for determining the arc rating and standard specification for eye or face protective products.

### ANSI Z87.1

Occupational and educational personal eye and face protection devices.

### NFPA 70E

Standard for electrical safety in the workplace.

## INDUSTRIES AND APPLICATIONS

- **Utilities** – substation work and underground applications
- **Commercial** – electrical panel and breaker room maintenance
- **Industrial** – plant shut-downs and energized equipment repair
- **General Manufacturing** – facility electrical work, electric vehicles

## BREAKTHROUGH COMFORT IN OUR LIGHTEST AND MOST BREATHABLE 40 CAL/CM<sup>2</sup> PREMIUM GARMENTS

**SOFTER ANTISTATIC FLAME RETARDANT** outer shell

**BREATHABLE ANTISTATIC LIGHTER IN WEIGHT** mid-layers & liner

**65 AND 100 CAL/CM<sup>2</sup> GARMENTS ARE ONLY AVAILABLE IN THE PREMIUM MATERIAL**

\* Tested at independent lab  
\*\* Compared to 40 cal/cm<sup>2</sup> standard offering  
\*\*\* Compared to 40 cal/cm<sup>2</sup> PLT

**500%** MORE BREATHABLE\*\*

**43%** LIGHTER IN WEIGHT\*\*

**28%** SOFTER TO TOUCH\*\*\*

**40 cal/cm<sup>2</sup>** ISO 13688:2013 EN ISO 11612:2015

## DO YOU KNOW HOW COMMON ARC FLASH HAZARDS ARE?

A worker is injured from electrically-induced causes every 30 minutes – mostly because of what is commonly known as an arc flash hazard. Simply put, an arc flash is a very large short circuit that goes into the air. It can happen with or without the presence of a worker at any location where electricity is present – including utility lines and residential, industrial and commercial facilities.

A few root causes of this phenomenon include the presence of old or rusting equipment, the build-up of conductive dust, tools being misplaced, improper work procedures or even a spider web that becomes humid and moist.

## WHY ARE THEY DANGEROUS?

The temperature of an arc flash can reach 35,000 degrees Fahrenheit – which is up to 4 times hotter than the sun. This means workers in potential arc flash environments need personal protection equipment that can withstand high heat without burning or losing its function and form.

The byproducts of this explosive condition include a broad spectrum of electromagnetic energy, plasma, fragments, and a spray of molten materials. For workers on utility lines or suspended welding and hot work applications, working at height comes with its own set of risks and therefore, requires fall protection equipment designed to withstand these hazards.

We know that lives depend on the quality of our products. For over 150 years, Salisbury has been the name an entire industry trusts to provide the finest safety products available.

All Honeywell Salisbury production facilities are ISO 9001 registered and are equipped and staffed to manufacture products which conform to the highest possible standards.

Salisbury is also your complete source for personal electrical safety products that comply with NFPA 70e requirements and OSHA regulations. This has enabled Honeywell Salisbury to become the world-wide leader in electrical safety equipment – including the revolutionary Pro-Wear™ Plus.

# YOU SPOKE WE LISTENED

**AT HONEYWELL SALISBURY WE TAKE YOUR INPUT SERIOUSLY. THAT'S WHY WE ARE COMMITTED TO CONSTANT IMPROVEMENT AND INNOVATION.**

## COMPETITIVE ADVANTAGES:

### LIGHTWEIGHT

Our lightest, most breathable 40 cal/cm<sup>2</sup> Premium garments yet. Our exclusive fabric layering design is the lightest and most breathable option available\*, no gimmicks or tricks needed.

### ENHANCED FIT

All garment types have been re-sized (based on ASTM D6240/D6240M-12 and D8077/D8077M-16) for the best fit, improved comfort and mobility.

### VENTILATED

Passive air vents are built into the back of hoods.

### SPORTY LOOK

Modernized appearance and unified look.
