NEW!

Miller AirCore™ Oil & Gas Harness

COMFORT IN THE AIR

COMFORT • EASY ADJUSTABILITY • LIGHTWEIGHT • STYLISH DESIGN

The new Miller AirCore™ Oil and Gas Harness is designed for workers on drilling or service rigs including everyday application in the oil fields. Finally, you can have one harness for every job!

It's built strong for day-to-day wear and tear and to last in a variety of harsh environments. This new line of AirCore harnesses keeps your workers safe whether they're positioning pipe, or doing routine rig set up, required maintenance or tear down.

The Miller AirCore Oil and Gas Harness offers many unique features:

- Multiple Back D-ring connections – 18" extended back D-ring provides an easy-to-reach attachment point for fall arrest, freeing the back D-ring as an additional connection point for fall arrest or rescue
- Enhanced lumbar padding – Expanded front waist padding for increased comfort and support
- Up to 20% lighter than similar competitive harnesses – Increased productivity and reduced fatigue
- Removable belt with leather guide – Improved design provides increased functionality, comfort and durability
- Oversized ID tag – Provides quick and easy harness size identification
- Lower lumbar D-ring – Provides restraint attachment point when needed
- Bos'n chair attachment – Rigid work seat for added support
- Seat sling attachment – Flexible seat for use with a derrick climb-assist system, reducing worker fatigue
- Improved cam buckle – Lightweight, low profile and easy to adjust

COMFORT – Breathable, open-core padding technology provides optimal air flow, while reducing heat and moisture entrapment, keeping a worker drier and cooler. Up to 30% less surface area than other padding used on the market. AirCore harnesses are designed with patented Miller DuraFlex® stretchable webbing that provides greater flexibility and increased comfort.

EASY ADJUSTABILITY – New cam buckles on the shoulder straps make vertical webbing adjustment the easiest of any harness on the market. Mating buckle chest and tongue buckle legs for easy donning.

LIGHTWEIGHT – Materials and components selected to reduce fatigue for all-day endurance and increased productivity; 20% lighter in weight than similar competitive harnesses.

STYLISH DESIGN – Webbing design creates an original and vibrant color for easy identification, greater visibility and increased safety.

Research has found that a comfortable harness is more likely to be worn properly, increasing compliance, safety and productivity.

Stand-Up Back D-Ring

Additional connection for fall arrest or rescue

Patented DuraFlex® Stretchable Webbing

Stretches with every movement; greater mobility and increased comfort

Front D-ring

Used for ladder climbing, confined space, rescue or suspension applications

Integral Label Pack

Honeywell RFID-Enabled Technology for inventory management; easy tracking, inspection and monitoring

Mating Buckle Chest Strap

Easy donning

Mesh Back Shield

Durable, knitted mesh membrane minimizes moisture absorption and maintains optimal air circulation

Removable Belt with Leather Guide

Improved design provides increased comfort and durability

Tongue Buckle Legs

Easy donning and adjusting

Leg Padding

Breathable, open-core padding technology

18" Extended Back D-Ring

Easy-to-reach back D-ring attachment for fall arrest

Back Padding

Breathable, open-core padding technology

Oversized ID Tag

Quick and easy harness size identification

Web Finial

Clip-on design safely organizes webbing after proper adjustment

Cam Buckle

Easy, one-hand adjustment/release allows simultaneous adjustment of shoulder straps

Enhanced Lumbar Padding

Expanded front waist padding area for increased comfort and support

Seat Sling with Side D-rings

For use with a derrick climb-assist system

Optional Bos'n Chair with Side D-rings

Rigid seat for added support

Breathable Open-Core Padding Technology

Enhanced Front Waist Lumbar Padding for Increased Comfort

ACOG-TBSSUG

Miller AirCore™ Oil and Gas Harness

SKU	Description	Special Feature	Weight
ACOG-TBSSUG	Tongue Buckle Legs, Mating Buckle Chest Strap, Front D-ring, Extended Back D-ring, Lumbar Pad, Removable Belt with Lumbar D-ring	Removable Seat Sling with Side D-rings	7.7 lbs. (3.5 kg)
