

>>> EMERGENCY EYEWASH

FOR ON-THE-SPOT, EMERGENCY EYEWASH NEEDS

Initial treatment of eye injuries is critical in recovery, making this product the perfect item for first responders, medical personnel, law enforcement, military personnel, construction sites and utility trucks.

This rugged, compact bag holds a total of 12 personal eyewash bottles containing sterile solution for emergency use. Highly portable and well-suited for immediate and continued flushing during transportation, it's like having a mini eyewash station in your hand.

SPERIAN® SALINE PERSONAL TRAVEL BAG

About Spierian Saline Personal Eyewash Bottles: Spierian personal eyewash bottles contain a buffered saline solution that is sterile and superior to tap water or water with a preservative for emergency eye care. Unlike tap water that may contain contaminants that can further irritate or damage the eyes, Spierian Saline is sterile and physiologically balanced to the pH and salinity of human tears. Bottles have an easy open top that is tamper resistant, yet easily removed in an emergency. The user controls the volume of the solution delivery – from drops to a full, irrigating stream of solution depending on the squeeze pressure applied to the bottle.
