

HONEYWELL DC365 SURGICAL N95 RESPIRATOR

The Honeywell DC365 Surgical N95 Respirator is an easy-to-don and doff, high fluid-resistant surgical respirator designed for clinician satisfaction across the spectrum of care.

PRODUCT FEATURES:

- Fluid-resistant at 160mmHg
- Designed with comfort in mind
- Dye-free and non-sensitizing
- Materials feel smooth and soft next to the skin
- Flexible, light-weight construction conforms gently to the face, minimizing pressure points
- Durable, dual-welded straps are easy to don and doff and provide a secure and comfortable fit
- Adjustable nosepiece for a customizable fit
- Multi-layer absorption media designed for lower breathing resistance
- Cup-shape with spacious breathing chamber
- One size
