

HONEYWELL is Simplifying its Air Purifying Respiratory Line One Solution – One Common Platform!

Honeywell is streamlining its portfolio of full facepieces, half masks, filters and cartridges to create a simplified offering that will provide the best experience for our users.

The North® N-series filters, cartridges and cartridge/filter combinations are the most compact and lightest weight cartridges from Honeywell and will become the single platform, approved with all Honeywell and North brand half masks and full facepieces. The North N-series provides a more comfortable, safer experience for workers using our air purifying respiratory products.

Features & Benefits

- **Smallest diameter** – reduces visual interference with work area while also improving head movement and neck rotation
- **Lightest weight** – relieves neck and back muscle fatigue even after a full 8 hr. shift
- **Equivalent service life** – the service life of the smaller North N-Series cartridges is equivalent to the service life of both the S- and T-Series
- **Deep threaded connection** – extra threads for a more secure connection and no training needed; won't accidentally get "disengaged"
- **Easier user seal check** – compact intake allows smaller hands to easily fit check
- **Designed to maximize airflow** – and maximize the life of the cartridge
- **Convenient packs** – packed in pairs, reducing the risk of mismatching cartridges and filters; workers can just grab a pack and go

What good is a cartridge or filter without a great mask?

We are pleased to share the Honeywell line up of half masks and full facepieces. The bestselling Sperian Survair masks were re-designed to accept the North N-series cartridges and filters. The same masks workers depend on – with the popular, smaller, lighter North cartridges and filters. And no new fit testing necessary*

HALF MASKS

- North 5500 – the practical choice; great fit at a great price
- North 7700 – our most popular mask made of durable, yet pliable, medical grade silicone
- RU8500 – formerly the Blue 1; comfortable silicone with a speech diaphragm standard
- RU8800 – replaces the Premier Plus; ideal for hard to fit faces –*coming soon*

FULL FACEPIECES

- North 5400 – great features, great price
- **NEW!** RU6500 – formerly the Opti-Fit; popular silicone full facepiece – available in the most configurations
- North 7600 – medical grade silicone face seal and nose cup; comfort for long shifts and everyday use

NEW! RU8500 Series

**NEW!
RU6500 Series**

*Moving to the RU6500 from the Opti-Fit or to the RU8500 from the Blue 1 or Blue 1H does not require new fit testing. According to OSHA, "or by using an identical negative pressure air-purifying respirator facepiece with the same sealing surfaces as a surrogate for the atmosphere-supplying or powered air-purifying respirator facepiece. 1910.134(f)(8)(i)". CSA defines surrogate respirators as one with "identical sealing surface" Z94.4-11 Section 9.1.7.

Need to know which product is right for you?

Use the Conversion Tables below to look up the Sperian Survivair part number and find your new N-Series cartridges.
