

THE FUTURE OF RESPIRATORY PROTECTION

Honeywell North® HM500 Series Half Mask

Introducing the HM500 Series Half Mask – welcome to the new dimension of safety and comfort.

The Honeywell North® HM500 Series Half Mask is engineered as a lightweight, durable soft half mask with easy operation features. Available in non-drop-down and drop-down versions, to ensure better comfort and convenience for extended wear. The drop-down option allows workers to remove the masks without taking off hard hats, earmuffs or eyewear.

Fully compatible with the HM500, Honeywell N-Series Filters and Cartridges are quick and easy to attach, securely staying in place to give you the confidence that the job will be done safely and productively.

HM501, non-drop-down version

HM502, drop-down version

HM500, AND HONEYWELL'S N-SERIES CARTRIDGES. WORKING WELL TOGETHER.

BREAKTHROUGH COMFORT

- Lighter than other masks with cartridges on the market
- The N-series filters and cartridges are 20% lighter than the T-series
- Soft material – better touch and seal with skin for long-time use
- 2020 Red Dot Product Award Design winner

TOP NOTCH EFFICIENCY

- Advanced over-molding manufacturing
- Easy assembly and disassembly
- Drop-down option for quick work breaks
- Easy fit checking, no matter how small your hands might be

ON THE JOB SAFETY

- Easy cleaning and maintenance
- Effective seal all shift long
- PPE compatible
- Good field of view
- Cartridges with a low profile, enabling a clear line of sight
- Suited for explosive working environments

Honeywell

HM500 SKU AND ORDERING INFORMATION

SKU	DESCRIPTION
STANDARD VERSION	
HM501TS	HM500 Small Elastomer Threaded Fixed
HM501TM	HM500 Medium Elastomer Threaded Fixed
HM501TL	HM500 Large Elastomer Threaded Fixed
DROP-DOWN VERSION	
HM502TS	HM500 Small Elastomer Threaded Fixed Drop Down
HM502TM	HM500 Medium Elastomer Threaded Fixed Drop Down
HM502TL	HM500 Large Elastomer Threaded Fixed Drop Down
REPLACEMENT PARTS	
770018	Exhalation Valve
HM5RP06	Inhalation Valve
HM5RP05	Headband Assembly
HM5RP05D	Drop-Down Headband Assembly
HM5RP04	Threaded Gasket

FILTERS

SKU	DESCRIPTION
N-SERIES PARTICULATE FILTERS	
7580P100	P100 Filter (99.97% efficiency)
75FFP100	Flexible Low Profile P100 Filter
75FFP100NL	Flexible Low Profile P100 Filter with Odor Relief
7531N95	N95 Filter Assembly - Includes 7506N95 pad filters, filter covers and filter retainers
7531R95	R95 Filter Assembly - Includes 7506R95 pad filters, filter covers and filter retainers
7506N95	N95 Pad Filter (95% filter efficiency for all particulates)
7506R95	P100 Filter (95% filter efficiency for all particulates)
7506N99	P100 Filter (99% efficiency for non-oil based aerosol particulates)
N-SERIES GAS AND VAPOR CARTRIDGES	
75SCL	Defender Multi-Purpose
N75001L	Organic Vapor
N75002L	Acid Gases
N75003L	Organic Vapor and Acid Gases
N75004L	Ammonia and Methylamine
N750052L	Mercury Vapor Cartridge with ESLI
N-SERIES COMBINATION FILTERS	
75SCP100L	Defender Multi-Purpose with P100
7581P100L	Organic Vapor with P100
7582P100L	Acid Gases with P100
7583P100L	Organic Vapor and Acid Gases with P100
7584P100L	Ammonia and Methylamine
75852P100L	Mercury Vapor Cartridge with ESLI
