

Winter glove with cut resistance level 5

Cold Grip Plus 5

Art.no: NFD11HD

Honeywell Cold Grip Plus 5™ Gloves were developed for workers who need protection from cut hazards when working in cold environments.

APPLICATION:

- Cut protection on highest level while working in cold conditions
- Safe grip in dry and wet conditions
- Provide protection from liquid penetration, while still allowing hands to breathe
- Enhance worker visibility in low-light conditions

ADVANTAGES:

- Excellent abrasion resistance and grip in both wet & dry environment
- A seamless design offer comfort and flexibility
- Flexible, even at low temperatures down to -26°C

AREA OF USE:

- Oil & Gas
- Construction - Masonry work
- Trash collection & recycling
- Sheet metal work and Glass handling
