

VERISHIELD™ SMART HEARING SOLUTION

Prevention starts with awareness. Monitor, analyze and detect hazards before hearing loss appears. Take your safety program to the next level with VeriShield Smart Hearing Solution (VSHS). VSHS monitors noise levels by combining cloud-based software and connected, protective headsets and helps you identify risks before they become a health issue or a significant business cost.

CONTINUOUS HEARING LOSS PREVENTION WITH VSHS

SAFETY SUITE WEB PORTAL

Safety Suite is the central component of the VSHS solution. It processes the data stored in the cloud for easy interpretation and analysis. Safety Suite generates actionable insights such as work environment analysis, at-risk worker identification, over-exposure root cause analysis and historical noise exposure records.

VERISHIELD MOBILE APP

Noise exposure data gathered by VeriShield 300 Series Headsets' integrated sensors are synchronized from the headset to the secure cloud via the mobile app.

The app enables supervisors to monitor the noise-level exposure of their workers but also lets employees view their noise exposure at any time. It provides easy-access control of advanced headset features.

VERISHIELD 300 SERIES HEADSETS

The headsets provide hearing protection and gather personal and environmental sound exposure information, downloading it to VSHS Mobile App. They offer data collection, transfer capabilities and audio and visual alerts. Available in three versions: VeriShield Headband and Hard Hat over-the-ear headsets and VeriShield in-ear headset.

IDENTIFY RISKS. MONITOR. PREVENT HEARING LOSS BEFORE IT HAPPENS.

GAIN AWARENESS

- Find out if headsets are worn correctly
- View data remotely on your smartphone or computer
- Get real-time insights into noise exposure
- Have continuous access to noise data on individuals, teams, sites
- Monitor and view info on peaks, patterns, unusual occurrences

BOOST SAFETY

- Reduce background noises to safe levels
- Headsets have a hear-through function for critical conversations and alarms
- Alert workers on their daily noise limits
- Increase workers' acceptance by showing them noise hazards
- Create personalized hearing conservation solutions

INCREASE EFFICIENCY

- Better-fitting, comfortable hearing protection
- Reduce time-consuming administrative and reporting procedures
- Improve your hearing conservation programs
- Develop a personalized approach to worker safety
- Reduce costs by simplifying procedures and saving resources

PART #	DESCRIPTION	COMPONENTS INCLUDED
SUBSCRIPTIONS PACKAGES		
1035151-VS	VS321 VeriShield Subscription	VeriShield Smart Hearing 2-Year Subscription + VS321 Over-the-Head Headset
1035153-VS	VS321H VeriShield Subscription	VeriShield Smart Hearing 2-Year Subscription + VS321H Hard Hat Headset
1035156-VS	VS332i VeriShield Subscription	VeriShield Smart Hearing 2-Year Subscription + VS332i In-Ear Headset
OTHER		
1035166-VS	VS32HK VeriShield Hygiene Kit VS321	1 Pair Ear Cushions + Left and Right Dust Cover + 1 Pair Microphone Foam
1035167-VS	VS300 USB Charging Cable	Charging Cable USB - USB C
1035168-VS	VS321 Rechargeable Batteries	Rechargeable Batteries AA
1035169-VS	VS321 Battery Lid Headband	Battery Lid for VS321
1035170-VS	VS321H Battery Lid	Battery Lid for VS321H
