

Frequently Asked Questions

Q1 What are the new Titan B-Compliant Roof Kits?

A1 The Titan B-Compliant Roof Kits provide a complete fall protection solution for roofing applications. The Kits simplify product selection by including all the components necessary for fall protection safety and Federal OSHA compliance.

Q2 What components are included in the Titan B-Compliant Kits?

- A2 Titan B-Compliant Kits include:
- Full Body Harness
 - Rope Grab with attached 3-ft. pack-style, shock-absorbing lanyard
 - Rope Lifeline – available in 25-ft. or 50-ft. lengths
 - Roof Anchor with hardware
 - Waterproof storage container

Q3 What is the maximum user weight for a Titan B-Compliant Kit?

A3 The Kits are designed for workers weighing up to 310 lbs., including any tools a worker may be carrying.

Q4 How are the new Titan B-Compliant Roof Kits different from the existing ReadyRoofer® Kits?

A4 The new Titan B-Compliant Kits have been designed to be the most economical roof kits. All of the kit components include our standard safety features and are easy to use. The chart below compares the features between the B-Compliant Kits and ReadyRoofer Kits.
