Industrial Product Line Card

MICRO SWITCH Basic Switches

V15W Watertight Miniature Switches
- Miniature-sized basic switch designed for harsh-duty washdown areas
- Rugged, highly accurate machine control for turning circuits on and off
- Compact, lightweight, and long-lasting
- UL, cUL, ENEC, CQC approvals

V15W2 Explosion-Proof Miniature Switches
- Approved for use in Zone 2 hazardous locations
- Over one million mechanical operations
- For potential use in refrigeration units using alternatives for HFC and HCFCs
- UL, cUL, ENEC, CQC, IEC Ex approvals

BZ Premium Large Switches
- Accepted as the world-wide standard snap-action switch
- Designed for 100K operations at full load or 10M for mechanical life
- Current ratings from 10 A to 25 A
- UL/CQA, CE, ENEC approvals

V7 Series Premium Switches
- Delivers long-term reliability with a wide variety of electrical currents
- Designed for 100K operations at full load or 10M for mechanical life
- Current ratings from 0.1 A to 26 A
- UL, cUL, ENEC, CQC approvals

Heavy Duty Pressure Transducers

PX2 Series Heavy Duty Transducers
- Piezoresistive sensing technology with ASIC signal conditioning in a stainless steel housing
- Industry-leading TEB as high as ±0.5 %FSS
- 0 bar to 50 bar | 0 psi to 700 psi
- Environmentally tough, withstands shock and vibration, freeze-thaw cycles
- IP65, IP67, or IP69K, depending on connector

PX3 Series Heavy Duty Transducers
- Piezoresistive sensing technology with ASIC signal conditioning in a brass housing
- Industry-leading TEB as low as ±1.0 %FSS
- 0 bar to 550 bar | 50 psi to 8000 psi
- All wetted parts with no internal elastomeric seals
- Six standard output options
- Input reverse voltage protection

SPT Series Stainless Steel Transducers
- Designed for media that will not adversely attack 316L stainless steel
- 0 psi to 3 psi, 0 psi to 5000 psi
- NEMA 4 design in a rugged, stainless steel housing
- Absolute, gage, sealed gage, vacuum gage pressures
- Three standard output options

Pressure Switches

HP, HE, LP, and LE Series
- Gauge pressure devices available with either SPST-NO, SPST-NC, or SPDT circuitry
- Life cycle rating up to two million
- Factory set or field adjustable options
- Hysteresis option (HP Series and LP Series only)
- Variety of pressure ports and electrical terminations
- IP67 sealing; UL508 pending, CE approvals
MICRO SWITCH Operator Controls

NT Series Commercial-Grade Switches
- Quality construction includes a seal between the toggle lever and bushing, and between the cover and case
- 1-, 2-, and 4-pole options
- 2- or 3-position maintained and momentary action
- NEMA 3, 3R, 4, 13 and IP67/68 environmental sealing
- UL recognized, CSA certified, and CE certified

Push-Pull Switches
- Sliding contact switch incorporating two circuits with multiple combinations
- Positive disconnect suitable for e-stop
- Momentary push version available
- Excellent vibration and shock resistance
- UL, CE certified

Hour Meters
- Feature accuracy to ±0.02%
- Various mounting configurations and sealing options
- Excellent vibration and shock resistance
- LCD display
- ac meters have CE mark
- UL, CE certified

Thermal Solutions

Commercial Thermostats
- Half-inch, snap-action, bi-metallic, SPST non-hermetic
- Automatic and manual reset options
- Phenolic or ceramic housings
- Wide variety of mounting brackets and terminals
- Operating temp. range up to 260 °C (500 °F)
- UL, CSA, and other international agency approvals

Thermistors
- Can be used as both a temperature monitor and control
- Available in a wide range of resistance values
- Variety of packages and styles from leaded devices to surface-mount versions
- Tolerances as low as ±1%
- Extremely stable over life

Packaged Temperature Probes
- Operate with enhanced sensitivity, reliability, and stability under diverse shock, vibration, and corrosive conditions
- Allow for monitoring of harsh gaseous and liquid environments
- On-board signal conditioning circuitry available
- Wide selection of resistances and terminations

SMART Position Sensors

SPS Series
- Enables highly accurate motion control and improves operation efficiency and safety
- Linear, arc, and rotary configurations
- Non-contacting technology provides enhanced life
- Self diagnostics to reduce equipment downtime
- IP67, IP69K for harsh applications, CE approvals

Potentiometers

380/RV4/485/53C/385 Industrial Series
- Retains position memory when power is off
- Stable over a range of operating temperatures, and provides high power dissipation
- Compact and rugged, thick-film devices
- Rotary, push-pull, and momentary options
- Certain listings carry MIL approvals
