

UPS module 230 V AC (19" installation)

Part-No.: 76089AC

Modern online microprocessor-controlled continuous 230 V UPS system with electronic bypass and overvoltage protection for highly sensitive and critical applications, such as control computers, workstations, servers. Shipped in stable and compact 19" housing with 2 Schuko sockets for connecting external devices. With integrated temperature sensor for monitoring electronics and batteries, as well as an intelligent battery management system, with LED indicators for battery charging and network load status. Equipped with serial port interface to connect to a computer as well as management software compatible with current Windows operating systems.

Rated voltage	230 V AC
Rated frequency	50 Hz ... 60 Hz
Output voltage	230 V AC \pm 2 %
Output current	3 A
Battery capacity	12 V / 7 AH
Bridging time	6 min (by 100 % load)
Ambient temperature	0 °C ... 40 °C
Air humidity	< 20 %
Weight	approx. 14 kg
Version	for mounting in 19" cabinet
Dimensions	W: 483 mm H: 89 mm D: 435 mm (2 HU, 19")
