

Honeywell Sensing and Productivity Solutions

315 East Stephenson Street
Freeport, Illinois, 61032
(815) 235-6591

To whom it may concern:

Subject: Compliance with REACH Regulation

Honeywell Sensing and Productivity Solutions is committed to its compliance with the REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) regulation. As part of our ongoing compliance commitment, we have completed a process to identify which, if any, substances of very high concern (SVHC) (meeting the criteria set out in Article 57¹ of REACH and included on the REACH Candidate List for further regulation), are contained within the product we supply to you and in what concentrations.

This communication refers to the latest version of the ECHA (European Chemical Agency) Candidate List dated below:

ECHA Candidate List

Manufacturer Part Numbers:	Heavy Duty Pressure Transducers, PX3 Series
Date of Candidate List:	17 June 2015
Date of Review:	24 November 2015

As part of the SVHC identification process, we have:

- reviewed our internally and publicly available engineering data in relation to the presence of SVHCs in our products or any of their component parts;
- reviewed available safety datasheets for all of our input materials;
- communicated with our suppliers to exclude/confirm the presence of SVHC in any component parts of our products.

As a result of this process, we confirm that, to the best of our knowledge, the product we currently supply to you does not contain any SVHC in concentrations above 0.1 % (w/w) for those part numbers that are included on the ECHA Candidate List noted above.

Sincerely,

Rodney Pruitt
