

DC/DC LVDT (Single power supply)  
 for use with +5V regulated or +6V to +18V unregulated supply

<u>WIRE</u>	<u>DESIGNATION</u>	<u>NOTES</u>
RED	+6V to +18V Unregulated	* When using a +6V to +18V supply, interconnect YELLOW and BROWN.
YELLOW	+5V Regulated Input	
BROWN	+5V Regulated Output	* When using a +5V regulated supply, insure that RED and BROWN are not connected to anything.
BLUE	0V, Supply Common	* The DC output is electrically isolated from the input voltage.
GREEN	Output (+/- 2V)	
BLACK	Output Return
